BACK UP & DATA RESILIENCE

Comprehensive cloud backup and disaster recovery delivering recoverable, and compliant data across all workloads.

Secure Nexus protects, monitors, and recovers critical business data across endpoints, servers, and cloud platforms for uninterrupted operations.

Secure Nexus delivers end-to-end cloud and endpoint backup with disaster recovery. Our solution protects data on-site, remote, and across SaaS platforms, combining instant recovery, immutable storage, and centralised management. Businesses gain confidence that critical workloads remain available, ransomware or hardware failures are mitigated, and compliance requirements are consistently met without operational disruption

Safeguarding Critical Data

Reliable data protection reduces downtime, prevents financial loss, and maintains business continuity. Automated backup verification, AI-driven threat detection, and fast restore capabilities ensure operational resilience. Organisations benefit from simplified management, predictable costs, and transparent reporting, allowing IT teams to focus on strategic initiatives while safeguarding critical information across hybrid and multi-cloud environments.

Managed Cloud Expertise

Every deployment is tailored to client environments and business needs. Secure Nexus combines hardware-free, image-based backups with SaaS-native protection for Microsoft 365 and Google Workspace. Centralised portals, governance automation, and immutable architecture protect against human error, ransomware, and accidental deletion. Our proactive, expert-led services ensure continuity, compliance, and efficient operations for organisations of all sizes.

Secure Nexus provides SaaS-native and endpoint backup with disaster recovery, combining instant recovery, AI threat detection, and governance automation.

How It Works

Endpoint and server backup leverages cloud technologies with instant virtualisation, immutable architecture, and centralised management for multi-client environments. SaaS workloads in Microsoft 365 and Google Workspace receive point-in-time restores, air-gapped protection, and automated ransomware mitigation. Secure Nexus integrates compliance automation, legal hold, and role-based access to strengthen operational resilience while maintaining predictable, transparent costs.

Benefits

- Rapid recovery within minutes, minimising operational downtime.

- Immutable, hardware-free backups protect against ransomware and accidental deletion.

- Compliance automation for GDPR, ISO 27001, and industry regulations.

- Centralised management portal simplifies multi-client monitoring and reporting.

- Continuous ransomware resilience and enhanced threat detection.

Outcomes

Clients achieve operational continuity, reduced risk, and confidence that critical data is always recoverable. IT teams can scale securely without additional infrastructure, and organisations benefit from simplified compliance, audit readiness, and centralised governance. By combining automation, expert guidance, and resilient cloud architecture, Secure Nexus ensures business-critical workloads remain secure, accessible, and protected against modern threats.

At Secure Nexus, our mission is to empower small and medium-sized businesses with affordable, reliable, cutting-edge cybersecurity solutions.

We are dedicated to fortifying digital assets, connecting operations securely, and defending infrastructure against evolving cyber threats.

At Secure Nexus, we help your business navigate the digital landscape with confidence, ensuring your data and operations are always protected.

Our commitment is to make cybersecurity accessible, reliable, and tailored to each client. Together, we create a resilient foundation for your business in the digital age.

Why Work With Us

- **Security is in our DNA:** Trusted UK-based partner focused on measurable improvement and risk reduction.

- **End-to-End Managed Service:** From training delivery to progress reporting and dark web monitoring.

- **Continuous Improvement Model:** Data-driven insights into human risk and training effectiveness.

- **Tailored for SMEs & Public Sector:** Practical, accessible programmes that scale with your needs.

- **Tangible Results:** Measurable risk reduction, stronger compliance posture, and greater user accountability.

At Secure Nexus, our values guide everything we do. They drive our decisions, shape our culture, and ensure we deliver security with confidence, integrity, and impact.

Secure with Impact

We don't just protect systems; we build trust and peace of mind.

Own It, Together

Accountability strengthens both our team and yours.

Keep It Authentic

Honesty and integrity drive every interaction.

Stronger as One

Collaboration fuels resilience and innovation.

Think Bold, Act Smart

We embrace creativity and calculated risks to solve challenges in new ways.

Never Stop Growing

We learn and adapt continuously to stay ahead of threats.

Ready to take the first step towards stronger security?

Don't wait for a breach to expose your business. Let's identify your vulnerabilities today, and close them before attackers find them.
