NEXUS PROTECT

Managed cybersecurity for modern organisations delivers comprehensive protection, simple tiered options, and complete confidence.

[» Secure Nexus Solutions](#)

Nexus Protect delivers enterprise-grade cybersecurity in an easy-to-manage, fully managed service, providing continuous protection across users, devices, and cloud environments.

Today's cyber threats are complex, fast-moving, and increasingly targeted at small and mid-sized organisations.

Nexus Protect delivers enterprise-grade cybersecurity in an affordable, easy-to-manage service providing continuous protection across users, devices, email, and cloud environments.

Backed by SecureNexus' UK-based Security Operations Centre, Nexus Protect combines advanced threat detection, awareness training, and data protection under one fully managed subscription.

Why Choose Nexus Protect

- **Unified Protection:** One managed service covering endpoint, email, cloud, and user awareness.
- **Scalable & Affordable:** Three clear packages designed to meet your needs and budget.
- **Continuous Monitoring:** 24x7 protection from evolving cyber threats.
- **Proven Technology Stack:** Built on industry-leading security platforms, fully managed by SecureNexus.
- **Compliance-Ready:** Supports Cyber Essentials Plus, ISO 27001, GDPR, and NCSC guidance.

Nexus Protect Packages

Package	Included Features
Platinum	Everything in Gold, plus enhanced email security
Gold	Everything in Silver, plus: SOC (24 x 7 x 365 Monitoring & Response)
Silver	Everything in Bronze, plus: Backup, Security Awareness & Phishing Training, Dark Web Scanning
Bronze	EDR / Anti-Virus, Email Security, Data Loss Prevention, Automated Threat Response

Core Service Components

- **EDR / Anti-Virus:** Next-generation endpoint protection combining behavioural analysis, ransomware prevention, and automated isolation safeguarding every device against advanced attacks.
- **Email Security:** Multi-layered protection for Microsoft 365 and other mail platforms. Blocks phishing, spoofing, and malware before they reach the inbox.
- **Data Loss Prevention (DLP):** Monitors and controls sensitive information leaving your organisation, reducing risk of accidental or malicious data exposure.
- **Automated Threat Response:** When a threat is detected, Nexus Protect automatically isolates affected endpoints, removes malicious files, and alerts our SOC for investigation

minimising downtime and business impact.

- **Microsoft 365 & Google Workspace Backup (Silver & Gold tiers):** Secure, immutable backups for Exchange, OneDrive, SharePoint, and Teams data ensuring fast recovery from accidental deletion, ransomware, or insider threats.
- **Security Awareness & Phishing Training (Silver & Gold tiers):** Engaging, continuous micro-learning and simulated phishing campaigns turn your employees into your strongest line of defence.
- **Dark Web Scanning (Silver & Gold tiers):** Continuous monitoring for stolen credentials and leaked company data across the dark web, alerting you before criminals can exploit them.
- **24x7 SOC Monitoring & Response (Gold tier only):** Our UK-based

Security Operations Centre provides round-the-clock monitoring, threat hunting, and incident response delivering true managed detection and response (MDR) capability.

Benefits

- **Comprehensive Defence:** Covers endpoints, email, data, and users under one unified service.
- **Flexible Tiers:** Choose the right level of protection for your risk profile and budget.
- **Expert Managed Service:** Delivered and monitored by Secure Nexus' UK security specialists.
- **Predictable Costing:** Simple per-user monthly pricing. No hidden fees.
- **Peace of Mind:** 24x7 protection and proactive response, backed by trusted professionals.

At Secure Nexus, our mission is to empower small and medium-sized businesses with affordable, reliable, cutting-edge cybersecurity solutions.

We are dedicated to fortifying digital assets, connecting operations securely, and defending infrastructure against evolving cyber threats.

At Secure Nexus, we help your business navigate the digital landscape with confidence, ensuring your data and operations are always protected.

Our commitment is to make cybersecurity accessible, reliable, and tailored to each client. Together, we create a resilient foundation for your business in the digital age.

Why Work With Us

- **Security is in our DNA:** Trusted UK-based partner focused on measurable improvement and risk reduction.
- **End-to-End Managed Service:** From training delivery to progress reporting and dark web monitoring.
- **Continuous Improvement Model:** Data-driven insights into human risk and training effectiveness.
- **Tailored for SMEs & Public Sector:** Practical, accessible programmes that scale with your needs.
- **Tangible Results:** Measurable risk reduction, stronger compliance posture, and greater user accountability.

At Secure Nexus, our values guide everything we do. They drive our decisions, shape our culture, and ensure we deliver security with confidence, integrity, and impact.

- Secure with Impact**
We don't just protect systems; we build trust and peace of mind.
- Own It, Together**
Accountability strengthens both our team and yours.
- Keep It Authentic**
Honesty and integrity drive every interaction.
- Stronger as One**
Collaboration fuels resilience and innovation.
- Think Bold, Act Smart**
We embrace creativity and calculated risks to solve challenges in new ways.
- Never Stop Growing**
We learn and adapt continuously to stay ahead of threats.

SECURE NEXUS

Your digital defence partner.

Ready to take the first step towards stronger security?

Don't wait for a breach to expose your business. Let's identify your vulnerabilities today, and close them before attackers find them.
